Portfolio

Objective

Enthusiastic Computer Science Engineering graduate seeking an entry-level position in the IT industry to apply technical knowledge, problem-solving skills, and innovative thinking in developing efficient software solutions while contributing to organizational success and professional growth.

Education

Chettinad College of Engineering and Technology
B.E. in Computer Science and Engineering (CGPA: 8.02)

2022 – 2026
Anna University

Chettinad Rani Meyammai Higher Secondary School
Higher Secondary Certificate (HSC)

2022
Score: 74.3%

Annai Indira Memorial Higher Secondary School
Secondary School Leaving Certificate (SSLC)

2020
Score: 96%

Technical Skills

Languages: Python, C, HTML, CSS
Design Tools: Figma, Adobe XD, Framer, Canva
Developer Tools: Git and GitHub, VS Code
Other: MS Office Tools

Projects

Blood Sync | HTML, CSS, Java Script, MySQL, Textbee SMS API

- Designed and implemented a full-stack blood donation platform that seamlessly connects donors with recipients in critical need.
- Integrated the Textbee SMS API to trigger real-time alerts to registered donors during medical emergencies, significantly reducing response times.
- Developed a robust database using MySQL to manage donor profiles, blood types, and availability statuses efficiently.

Sign Language Translation System | Python, Computer Vision, OpenCV

- Developed an assistive technology system capable of translating sign language gestures into readable text in real-time.
- Leveraged Computer Vision and Machine Learning algorithms to track hand movements and recognize distinct gesture patterns.
- Enhanced communication accessibility for the hearing-impaired community by creating an intuitive digital interface for gesture-to-text conversion.

Fire Extinguisher System | Arduino, IoT, Sensors

- Designed an automated fire detection and suppression prototype utilizing Arduino microcontrollers and high-sensitivity flame sensors.
- Programmed logic to immediately trigger suppression mechanisms upon detecting thermal anomalies, enhancing safety protocols.
- Integrated IoT components to allow for potential remote monitoring of the system status.

Certifications

- Figma UI/UX Mastery** | *Udemy* 2025
- Learned advanced UI/UX design principles and practical Figma skills to create interactive, user-centered designs.
- Digital Skills: User Experience** | *FutureLearn* 2025
- Gained foundational knowledge in user-centered design, usability principles, and the UX design process.
- Test Engineer** | *ICT Academy & Infosys Foundation* 2025
- Successfully completed the Test Engineer course under the Infosys Foundation Finishing School for Employability Program at Chettinad College of Engineering and Technology.
- AI Masterclass** | *Novitech* 2024
- Gained hands-on experience in core AI concepts and real-world applications.
- Figma Bootcamp** | *LetsUpgrade* 2024
- Learned UI/UX fundamentals and design prototyping using Figma.
- Python Programming** - HCL GUVI
- Introduction to HTML and CSS** - HCL GUVI

Achievements

- 2nd Place, Software Debugging** - SPARCADEUS 2K24
- 2nd Place, UX Rescue Showdown** - ASTHRA 2K25
- Grand Finale Qualifier, Tamil AI Hackathon** - Selected for the final round of the Tamil AI innovation competition
- Participated in **CODE N' SURGE** - National level Hackathon on Full Stack Development
- Participated in **FUSION BYTE 2K24** - Web Design Event
- Participated in **SPECTRA'24** - Enchanting Web Event

Declaration

I hereby declare that the above mentioned information is true to the best of my knowledge and belief.

Date: June 19, 2026

Place: Tamil Nadu
